

StreamUnlimited develops software and electronics for **audio streaming, voice assistant devices, wireless smart speakers** and is the global leader in this field. Our solutions are used by Premium Audio Brands, as well as manufacturers of Smart Home products. StreamUnlimited is a main player in the field of **Chrome Cast built-in™, Google Voice Assistant** and **Amazon Alexa**. Headquartered in Vienna/Austria we operate offices in Bratislava, China and Silicon Valley.

We are looking for a **Senior Developer Android OS / Things (m/f)**

#### Your responsibilities

- You work on integration of Android Things on new platforms, including bring-up of dependencies and Linux kernel.
- You contribute to high quality user space software running on Android Things.
- You create concepts, implement them and validate new functions and features.
- Beside working on customer-projects you are involved in internal research projects.
- Please be aware that we are NOT looking for App developers!

#### Your profile

- Technical education on university-level (Informatics, Electronics or similar)
- Experience with programming in C and C++ (Senior level) and Java (Junior level)
- Experience in Linux Kernel programming, device bring-ups and BSP
- You have knowhow about the Android build system and Android frameworks
- You are familiar with Network-/Internet-Standards and ARM processors
- Experience in creating or modifying Android Custom ROMs is an advantage
- Experience with Agile Programming (scrum) is an advantage
- You speak English fluently

#### What we offer

- Growing company with various career possibilities
- Team-oriented and informal work environment
- Challenging projects
- Collaboration with the world's leading technology companies (incl. trips to Asia and USA)
- Vienna office is 7 minutes from U6 and 4 minutes from Badner Bahn, sufficient parking lots
- Subsidized cafeteria, flexible working hour

For these positions we offer an annual salary of at least EUR 42.000.- (with overpayment depending on qualification) and performance-related bonus payments.
