

StreamUnlimited

A Specialist for IoT/Internet of Things

Company

StreamUnlimited is a 60 people Engineering House in the heart of Europe, focused on embedded connectivity since more than 10 years.

Our team is already working on wired and wireless technologies since long before the buzzword IoT showed up.

We are the glue for IoT: We connect your Things to the Internet.

IoT Design Activities

- Design In support
- Hardware electronics development
- Module and product development
- Software development
- System architecture
- Demonstrators and prototypes
- App development
- Test & release of connected products
- EMC services
- Industrialization & life cycle management

We provide complete engineering services, from idea to mass production.

Typical Fields of IoT Applications

- Home Control
 - Smart lighting
 - Climate control
 - Remotely controlled appliances
 - New consumer devices
- Industrial
 - M2M (diagnosis & asset control)
 - Wireless sensors
- Traffic Control
- Automotive
 - Vehicle diagnosis
- Logistics
- Healthcare & patient surveillance
- Agriculture

Platform Know-how

- Texas Instruments
- Freescale
- SolidRun - MicroSOM
- CSR
- Marvell
- ZMDI
- Qualcomm/Atheros
- and many more
